

My Filter Bubble

ME

The diagram illustrates the concept of a 'filter bubble'. At the center is a large black circle containing the text 'ME' in bold black letters. Surrounding 'ME' are ten light blue bubbles of various sizes, each with a thin blue outline. These blue bubbles are contained within the central black circle. Outside this central circle, there is a ring of twelve light yellow bubbles, also of various sizes and with thin yellow outlines, arranged in a circular pattern around the central bubble group.
